

1 Statement of intent

CambsQuality Ltd. recognises that many people in our society experience discrimination or lack of opportunity for reasons that are unfair. We aim to create a culture that respects and values differences.

We challenge discrimination and lack of opportunity in our own business and will try to help other organisations and individuals with whom we work to do the same.

2 Implementation and Monitoring

The Directors are responsible for monitoring the effectiveness of this Equality Policy.

During their induction all staff sign to say they have read and understood the policy and that they will comply with both the spirit and the letter.
